### **GUARANTEE OF PURCHASE – receipt of purchase**

You have purchased an authentic painting by Alison Aplin. Alison uses quality frames, stretched canvasses and paints. She also uses various other mediums to add texture to many of her paintings.

She is what would be described as an 'emerging artist' as she only started painting around 2009. Her technique gravitates with all of her work to the quirky and abstract, having found that she doesn't have the patience to do traditional landscapes. But this style isn't for her anyway – by nature she is fairly bold and her paintings reflect this. And Alison sells her paintings.

She won the Best Local Artist at the local Portland Rotary Art Show in 2010.

Alison is a designer at heart – it is her passion. With all of her designs, the principles of design – balance, juxtaposition of all elements within the space, colour, texture etc, are all considered. But abstract art counteracts many previously solid theories about how compositions are put together. Alison enjoys challenging these preconceived ideas to interpret all aspects of her designs using the adage 'rules are made to be broken'.

Alison is also a multi-award winning landscape designer, specialising in genuine sustainable landscapes. She has won significant awards in both South Australia and Victoria.

Design is Alison's passion. Throughout all of her businesses, this is clearly evident.
